

Redefining Marriage

Redefining Marriage

**will affect every aspect of society
& have devastating consequences
for children.**

- › Marriage is inherently designed to provide children with a mother and father. Same-sex “marriage” purposely deprives children of one parent.
- › Government has a compelling interest in promoting a sexual complementary union, NOT a “love” relationship, to protect the health, welfare, and inherent rights of children.
- › If “love-makes-a-marriage” logic is used, it provides the legal basis for any combination of partners, including polygamists and bisexuals (LGBT).
- › All “love” relationships are NOT equal. Not all *behaviors* are equally beneficial. True equality doesn’t demand different behaviors be treated the same.
- › Schools will be mandated to teach children homosexuality as normal behavior, which many parents believe is unhealthy, unnatural and/or immoral.
- › Businesses will be forced to accommodate same-sex “marriages” or face lawsuits.
- › Social and civic organizations will be forced to accommodate same-sex couples.

Urge your state rep to vote NO. Call the Capitol switchboard at (217) 782-2000 and urge your state rep to vote NO to same-sex “marriage”.
