I will be a male Slut-in-training on a leash held my mistress, Madame Domino, with a mask made of 2 pair of black panties covering my face and most of my head under a lurid black/red wig, with my ankles, knees and wrists tied together so I can only hobble helplessly in her wake. When she thinks I might be thirsty, she will use a turkey baster to squirt a vile, yellowish liquid into wherever she thinks my mouth is behind the mask; when she decides to dance, she will leave my leash with one of her friends, or just tie it to a water pipe until she is finished dancing, and I will be forced to stand and wait for her to return, unless of course the "friend" decides to take revenge on every slut who has ever stolen a boyfriend from her by whipping me or kicking me in the crotch. I will endure all this without complaint because I love Madame Domino, and only wish to serve her in any capacity in which she will have me.

I have always said that there is only one requirement to have a perfect body- -a pussy between the legs. A perfect mind; now that's a whole different thing.
