
URGENT!

CALL YOUR STATE REP TO OPPOSE ABORTION BILLS SB 1564 & HB 4013

Our state representatives in Springfield are considering two troubling bills that promote abortion services in Illinois.

SB 1564 would require pro-life doctors to refer abortion-minded patients to an abortionist. According to the Christian Medical & Dental Associations, 95% of physicians would quit their practice rather than violate their conscience.

SB 1564 would also negatively affect crisis pregnancy centers that provide health care services. Lawmakers who support this bill are essentially demanding that these life centers give referrals to Planned Parenthood or other abortion providers!

HB 4013 would reverse all current prohibitions on taxpayer funding of abortion for Medicaid patients. Prior to the ban, taxpayers were forced to pay for between 10,000 to 13,000 abortions per year. Women could have multiple abortions each year paid for by *you*.

Take ACTION

Please contact your state representative to ask him/her to vote AGAINST both of these pro-abortion bills. You can contact your state representative by calling the Capitol switchboard at **(217) 782-2000** during normal business hours.
